

## Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Aegon European Government Bond Fund Euro Class Z Acc (The “Fund”) (IE00BZCNTW65).** This is a sub-Fund of Aegon Asset Management Europe ICAV (The “ICAV”). The Fund is managed by Aegon Investment Management B.V..

### Objectives and investment policy

**Objective:** The investment objective is to provide long term capital growth.

### Investment policy:

The Fund is actively managed. The Fund will seek to achieve its investment objective by investing at least 67% of its net assets directly or indirectly, in government bonds and government related bonds such as municipalities, supra-national organisations (fixed and/or floating rate) of countries belonging to the European Union and in countries in the process of negotiating accession to the European Union with the European Commission (such as Bosnia and Herzegovina, Serbia and Turkey). The Investment Manager aims to add value by active selection of the weighted average life of bonds (average length of time until repayment of the principle invested) and specific bonds in the portfolio as well as active selection of issuers, issues, countries, sectors, ratings and maturity buckets. All active selections are based on the outcome of top-down and bottom-up research in which government bond markets are assessed along the lines of four dimensions: fundamentals (assessment of economic cycle and monetary policy), valuation (valuation of government bond markets), technical (assessment of technical indicators of the government bond market like interest rates, curves) and sentiment (investor positioning, risk aversion and political developments). Investments will not be made by the Investment Manager if the Investment Manager's aim will not be met following the top-down and bottom-up research and assessment based on the four dimensions. The Fund may invest in financial derivative instruments for investment purposes and for the purposes of efficient portfolio management or hedging purposes. The benchmark of this fund is ICE BAML European Union Government Bond Index (Hedged to Euro). The Fund is actively managed in relation to the benchmark. The degree of freedom from the benchmark is moderate.

**Other information:** Participants can enter or exit the Fund on a daily basis at the intrinsic value of the participation in the Fund. When applicable, the fund will charge a mark-up for subscriptions or a mark-down for redemptions. The Fund does not distribute any dividend. Income received is re-invested. The Fund may not be appropriate for investors who plan to withdraw their money within 3 years.

### Risk and reward profile

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. The Fund has been categorised as 3. . The Fund's risk and reward category is not guaranteed to remain unchanged and may shift over time. It is calculated using historical data, which may not be a reliable indication of the future risk profile of the Fund. Category 1 does not mean 'risk free'.

The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund.

**Interest rate risk:** The Fund's exposure to market risk is mainly with regard to movements in the value of its investments, changes in interest rates that in the event the Fund makes any fixed interest investments, may decrease its net interest income. In the event of a general rise in interest rates, the value of certain investment in the Fund's assets may fall, reducing the net asset value of the Fund..

Full details of risks are disclosed in the 'Risk Factors' section of the Fund Supplement to the Prospectus and the Prospectus: Aegon Asset Management Europe ICAV.
