An investment in this Sub-fund involves investment risks, including possible loss of the amount invested. Prospective investors should be aware that the securities and other investments of this Sub-fund are subject to normal market fluctuations and other risks inherent in investing in securities and other investments.

In particular, the Sub-fund will usually continue to take an exposure on a Component Security or a security which gives an equivalent price performance to the Component Security until the Component Security is removed from the Index even where that security is decreasing in value.
